

COE

"Brazilian Structured Note - COE" (Certificados de Operações Estruturadas - "COE")

The **COE** is a structured product that combines the features of both **Fixed Income** and **Equity** products. It is an option that combines - in a single investment - diversification and access to new markets such as **commodities, indices, stocks and currency exchange**.

Its other differential is that it is structured according to risk scenarios tailored to the profile of each investor.

For more information about the product, visit **Terms and Conditions - COE**.

All the products issued by Haitong are available for sale at our partner institution listed below.

Please read the Essential Information Document (EID) before investing in Brazilian Structured Notes (COE).

"This offering has been exempted from registration by the Securities and Exchange Commission of Brazil (CVM). The distribution of Brazilian Structured Notes (COE) does not imply, on the part of regulatory authorities, any assurance as to the veracity of information provided or compliance of said certificates with law, or any judgment on the quality of the issuer or brokerage firm."
